

STAT 8010–003 Statistical Methods I

Homework 1

Instructor: Whitney Huang (wkhuang@clermson.edu)

Due Date: September 11, 1:25pm

Problem 1

Find a data set that is of interest to you (**please specify the data source**).

- (a) Is this study *experimental* or *observational*?
- (b) Identify the variables and the associated variable types.
- (c) Summarize each variable graphically
- (d) Summarize each variable numerically
- (e) **Optional:** State the research question(s) you would like to investigate using this data set.
