

# STAT 8010–006 Statistical Methods I

## Homework 1

Instructor: Whitney Huang ([wkhuang@clermson.edu](mailto:wkhuang@clermson.edu))

**Due Date:** September 8, 3:30pm via Canvas

### Problem 1

Find a data set that is of interest to you (**please specify the data source**).

- (a) Is this study *experimental* or *observational*?
- (b) Identify the variables and the associated variable types.
- (c) Summarize each variable graphically
- (d) Summarize each variable numerically
- (e) State the research question(s) you would like to investigate using this data set.
